Description

Organisation and cleanliness is brought back into your vehicle with the waste bin, it can be very simply fastened to the aluminium side panel of your Sortimo van racking system with the aid of a wall fixation. As a result, dirty paper towels or packaging material no longer lie around in the vehicle, but can be disposed of directly into the waste bin. It is possible for the waste bin to be removed at any time, in order for it to be emptied or cleaned. The capacity is 10 litres. It is also possible for it to be used in the workshop.
