Clamping device 1

Material no.: 801009976 | Matchcode: ZSG 1 | EAN code: 4045294130657

Description

Your shovels, brooms, axes etc. are optimally fixated with the clamping device. But also large screw clamps and hammers can be safely transported. The application is simple: position clamping device, hook in rubber clamping strap and move the clamping lever. You avoid noise generation during transit with this clamping device, which means you can enjoy a relaxing journey to and from your place of operation. The installation can be either carried out on the partition wall or on the aluminium side panel of your van racking system. The clamp holder is appropriate for long-handled equipment with a diameter of 15-30 mm. Note: The installation material varies depending on the installation situation and is therefore to be ordered separately. Depicted accessories are only for demonstration purposes and are not included in the scope of delivery.
