aluminium rail for universal holder

Material no.: 801012166 | Matchcode: ZUS | EAN code: 4045294145156

Description

The aluminium rail (90 cm in length) provides for attachment of the universal holder. Several holders can be variably inserted into the aluminium rail, so that you can position the holder entirely to the circumference of your long handled equipment, such as a brooms or shovels. These little helpers facilitate your day-to-day work, by providing for organisation and fixation of your long handled equipment during transit. As a result, saving you much search time in the loading space.
