Description

The divider set 3F can be used to subdivide an L-BOXX 102 G4 into three transverse compartments. Larger tools and work utensils can be securely stowed away and transported in the subdivided compartments. This subdivision creates order, resulting in major time savings when working. Thanks to the dividers, your materials are arranged more clearly and you avoid forgetting expensive tools or machines. This structured method of working is guaranteed to simplify your working day, at the same time as impressing your customers.
