Material:	EPP Plastic
Colour:	Black

### Dimensions

Outer dimensions:	310 x 418 x 20 mm
-------------------	-------------------

### Technical data

Weight:	0,05 kg
---------	---------

### Description

The individual shaped rigid foam inserts can be used to replace individual layers of the shaped insert set for the L-BOXXes 102 G4 (art. 1000011102) and 136 G4 (art. 1000011101) or to extend them. Use the rigid foam shaped inserts individually to adapt the interior of your L-BOXX to the equipment or tools you are carrying. Your tool outlines are transferred to the cutting plate and then cut out by a knife. Your equipment and tools are now protected from scratches and impact within the recesses created, preventing items from flying around uncontrolled in your L-BOXX G4.

Delivery includes a 15 mm thick rigid foam EPP self-cutting insert.

We reserve the right to make changes in the interest of technical progress, as well as correcting printing errors and mistakes. Pictures are similar, decorative material not included. With the publication of this data sheet, previous editions lose their validity. Version: 21.12.2023
