	6000010902	Insetbox 2x2 H31	IB 2X2 H31	4045294730147

### Description

The L-BOXX H31 G partition base creates even more order and maximum use of the BOXX's volume. It divides the L-BOXX 136 G4 and LS-BOXX 306 G into two levels, each of which can be fitted with inset boxes. The two levels can each be individually fitted with inset boxes having a height of 31 mm. An inset box Ux6 H63 (for the L-BOXX 102 G4) and an inset box Ux6 H95 (for the L-BOXX 136 G4) is needed on both the right and left of the BOXX floor to configure a double layer of inset boxes. The partition floor and the individual inset boxes can be removed from the L-BOXX at any given time.

Tip: Fit our rigid foam lid insert to the lid of the L-BOXX. When it closes, it seals the top of the inset boxes, preventing the contents from becoming mixed up.
