Description

The L-BOXX lid insert is the perfect addition to your L-BOXX 102 G4 or 136 G4 and the middle of it can also be prevented from dropping down by a pin in the screwed lid dome. It seals the top of the inset boxes or small component trays stored in the L-BOXX, preventing the contents from becoming mixed up, saving you lengthy searching and sorting of small components in the L-BOXX when you arrive on site.
