Description

The T-BOXX 320 including 45 insetboxes H31 contains an intermediate floor for organisation on two levels (upper insetbox equipment: 22x insetboxes 1x1 H31, 11x insetboxes 1x2 H31; lower insetbox equipment: 12x insetboxes 2x2 H31). This means the space in the T-BOXX can be ideally used to store a large number of different small parts.

We reserve the right to make changes in the interest of technical progress, as well as correcting printing errors and mistakes. Pictures are similar, decorative material not included. With the publication of this data sheet, previous editions lose their validity. Version: 16.11.2023
