Unlimited possibilities with one **CLICK**

- › Ergonomics and mobility
- › Direct access and order
- › Integration into the Sortimo EcoSystem
- › Durable and safe

ProClick – Endless possibilities with just one click

The ProClick system is not just a new product line for mobile working, but also a system that incorporates itself seamlessly in the working day of every tradesperson and service technician. Together with the joint venture BS Systems, Sortimo and BOSCH have developed ProClick, a product line that integrates into the Sortimo and BOSCH product world that also enables tools and consumables to be carried directly on the body. Annoying bending and searching is now a thing of the past thanks to the tool bags. Similarly, the tools and consumables are easy to put away again. Unlike trouser pockets, which you would have to empty first.

This allows you to carry tools and working materials directly on your body via textile bags. It also fits into the Sortimo and BOSCH ecosystem – which means it is compatible with a wide range of products already available in the Sortimo and BOSCH product range – regardless of which brand.

Furthermore, ProClick is compatible with the ProSafe load securing system, as it uses the same mounts. This means ProClick bags can be hooked into all side profiles of the SR5 system with ProSafe via the integrated hooks.

Holder

At the heart of the system is the ProClick Holder. This is what holds all ProClick Tool Bags. All ProClick bags available on the market can be hooked into the Holder – across different systems. In turn, the ProClick Holder can be attached to any standard belt.

	ProClick Holder Dimensions (WxDxH): 83 x 58 x 27 mm Load capacity: 5 kg Fits all standard belts with a width of up to 5 cm	6000013927

ProClick – Endless possibilities with just one click

ProClick shoulder strap

The ProClick shoulder strap is the perfect complement to the ProClick tool belt. Thanks to the snap hooks on the adjustable webbing straps, the belt can be quickly and easily attached to the D-rings of the tool belt. Thus, the load is optimally distributed over the body, and the belt supports ergonomic working with the ProClick tool bags. The breathable mesh padding in the shoulder area also increases wearing comfort, especially for longer and more intensive operations. Two integrated strap loops allow the additional attachment of the ProClick Holder. This means that ProClick tool pockets can also be placed in the chest area to always have tools at hand. Additional pockets also offer storage options for smaller tools such as screwdrivers and pens on the chest strap.

Product description		Article no.
	ProClick Shoulder Strap S/M Padding dimensions: 42 cm Belt strap length: 90–125 cm Load capacity: 24 kg (ProClick tool belt is not included)	6000015243
	ProClick Shoulder Strap L/XL Padding dimensions: 52 cm Belt strap length: 105–140 cm Load capacity: 24 kg (ProClick tool belt is not included)	6000015244

Connection to the ProClick belt with D-rings.

Integrated belt loops in the chest area allow optional attachment of ProClick holders. Above the shoulder strap additional ProClick bags can be added as well.

Pockets offer additional storage options for smaller tools such as screwdrivers or pens.

Tool belt

The tool belt allows comfortable and back-friendly carrying of tools and work materials directly on the hip. Thanks to its robust design, ProClick Holders can be flexibly attached and tool bags can be clicked in and out quickly and easily.

Product description	Article no.
 ProClick Tool Belt S Padding dimensions: 80 x 12 cm Belt strap length: 100 cm Load capacity: 24 kg Space for up to five ProClick Holders	6000013940

 ProClick Tool Belt XL Padding dimensions: 110 x 12 cm Belt strap length: 160 cm Load capacity: 24 kg Space for up to five ProClick Holders	6000015090

Tool tray

The ProClick tool carrier and tradesman bag offer flexible, robust transport solutions for tools and accessories. With generous compartments, loops and mounts, they provide perfect visibility and order, while the plastic floor and reflector strips provide protection. Thanks to the ProClick system, bags can be securely attached to L-BOXEs, vehicle equipment or the tool belt for maximum comfort and seamless integration on the go.

ProClick – Endless possibilities with just one click

Tool bags and accessories

The ProClick bags are available in different sizes and designs. They are made from sturdy polyester (1000 den) and are fitted with practical dividers, loops and holders, so that tools and consumables all have their own fixed place and are easy to reach.

Unlike your trouser pockets, the ProClick tool bags provide a perfect overview of work materials and can be pre-sorted according to the task at hand. The reflective strips on the sides improve visibility in the dark and offers additional protection – particularly in the dark winter months.
