Description

The toggle closed storage space makes the sturdy ProClick Nail Bag M perfect for storing and transporting consumables such as nails and screws. However, it can also be used for safety glasses, ear defenders and safety gloves. Additional hand tools can be carried in the six elastic loops mounted on the sides in an organised arrangement. This makes the ProClick Nail Bag a genuine allrounder for every handyman.

The nail Bag teams up perfectly with the ProClick Holder on your tool belt. This means that you always have the right tool and consumable to hand, and this saves lots of time when you are working up a ladder. The tool bag can also be used as a flexible and intelligent storage system on the SR5 van racking, in the C-BOXX, the tool carriage or on the AutoAssistant.
